You are accessing a U.S. government (USG) information system (IS) that is provided for USG-authorized use only. By using this IS (which includes any device attached to this IS), you consent to the following conditions:

- The USG routinely intercepts and monitors communications on this IS for purposes including, but not limited to, penetration testing, COMSEC monitoring, network operations and defense, personnel misconduct (PM), law enforcement (LE), and counterintelligence (CI) investigations.
- At any time, the USG may inspect and seize data stored on this IS.
- Communications using, or data stored on, this IS are not private, are subject to routine monitoring, interception, and search, and may be disclosed or used for any USG authorized purpose.
- This IS includes security measures (e.g., authentication and access controls) to protect USG interests—not for your personal benefit or privacy.
- Notwithstanding the above, using this IS does not constitute consent to PM, LE or CI investigative searching or monitoring of the content of privileged communications, or work product, related to personal representation or services by attorneys, psychotherapists, or clergy, and their assistants. Such communications and work product are private and confidential. See [User Agreement](#) for details.

Select the "Continue to ERS" button on the following page. You may be prompted to select your CAC signature certificate.

*National Guard units- See slide 17 for instructions on how to search for unit data

Next, you may select the following options to obtain data: “Status Reports”, “Late Reports”, or “Summary by Component”. The search will default to the “Status Reports” tab.

It is recommended to find the search criteria (UIC, PSC, SR Rank, etc) that works best to obtain data for your organization. The search criteria will automatically filter to the next tabs, “Late Reports” and “Summary by Component”.

1. Purpose: This report reflects information on all OER & NCER regardless of component (except for ARNG NCER) which reflect a specific command code and which have thru dates falling between specified period of time.
2. This report reflects the command code physically on the evaluation, not the command code, with which the Soldier is currently associated. This report might not be helpful as the last evaluation might be from a different command code. Also, if the command code is not entered into the HQDA level database correctly (which happens frequently with paper copies) a specific report may not reflect. Evaluations digitally signed and submitted electronically have the best chance of having the correct date, the real best chance of correct date comes with evaluations digitally signed and emailed as .pdf attachments.
3. This report does not reflect any reports which are classified and processed under the classified system or AER.
4. This report might time out when the period of time or date requested is too large. We recommend using shorter periods of time at first.
5. AR 623-3 and DA Pam 623-3 contain the policy and process for military evaluations.
