March 2016

UTAP WELCOME

Welcome to this edition of the Unit Training Assistance Program (UTAP) Newsletter, UTAP NEWS. For those of you that are new members within the last month, the UTAP team would like to personally welcome you to our program.

CUSTOMER ASSISTANCE TEAM (CAT)

UTAP has a Customer Assistance Team (CAT) that deals personally with your request for assistance. The CAT goes directly to the source with your request and works toward a resolution. Whether you are looking for training material or a solution to a problem that you are having with a TACOM system, CAT's mission is to get you a suitable answer. The CAT can be reached in several ways:

LOTTIS home page, Under "**Customer Assistance Tab/Contact Us**" Link

By e-mail at: usarmy.detroit.tacom.mbx.ilsc-utap@mail.mil

By phone at Comm: 586-282-4276

DSN: 786-4276

News Articles/Training Material

Attention Members: If you have a news article that you would like inputted into UTAP News, please send your article to UTAP's e-mail address at usarmy.detroit.tacom.mbx.ilsc-utap@mail.mil or under the "**Contact Us**" Link located on LOTTIS home page, by the 15th of each month.

Training Material

Do you have training materials that you would like to share with LOTTIS members? If so, click "**Submit Training Material to LOTTIS**" Link located on LOTTIS Home Page or contact the Customer Assistance Team at UTAP's e-mail address above. Page 14 gives instructions on how to submit training material within LOTTIS.

Operated by the All-Terrain Crane (ATEC) AT-422T CBIT CDs**

UTAP still has extra Final Operator and Maintenance Training Heavy Type II (M400T) and Light Type III (M400W) Skid Steer Loader CDs and also has extra BPDS CBIT CDs.* If your unit would like one of these CD's, send POC name and work mailing address to:

usarmy.detroit.tacom.mbx.ilsc-utap@mail.mil

and a CD will get mailed to your unit.

*The BPDS CD can only be viewed on a stand-alone computer or an MSD V2 or V3.

EIR DIGEST NEWS ARTICLE

Starting in April 2016, the EIR Digest will be available on LOTTIS Home Page under EIR Digest Tab. Below is an article written by Rob Nagel, Chief, Publications Services Team, TACOM, describing what the EIR Digest is all about:

In December 2009, TACOM published the final issue of the Equipment Improvement Report and Maintenance Digest. This quarterly bulletin, issued since the 1970s, covered all categories of equipment (including some used by other services) managed by the TACOM Life Cycle Management Command. It contained information on EIRs, Equipment Publication Changes, MWOs, Warranty/Recall information, and publication actions, some resulting from DA Form 2028 (Recommended Changes to Publications and Blank Forms) submittals.

Since last summer, TACOM's EPCO has explored the possibility of resurrecting the Digest, especially after insightful discussions with Matthew Caputo, Senior Maintenance Advisor and USAREUR Maintenance Advisor. Prior issues of the Digest were mainly produced by an outside contractor, and the cost of that effort was one of the main reasons the Digest was abandoned after 2009. This time, the Digest will be compiled and produced in-house by EPCO staff. Although certainly labor-intensive, having control over its development will ensure accuracy while saving taxpayer money.

The first issue of the resurrected EIR Digest, TB 43-0001-62-16-1, will come out sometime this April after it is authenticated by the Army Publishing Directorate (APD). It will cover the period of JAN through MAR 2016 (1QCY16). Issues thereafter will come out quarterly. Each issue of the Digest will expire two years after its publication date.

The Digest will contain the following chapters:

1. General information
2. EIR Cases
3. Minor Alterations
4. DA Forms 2028 (Approved for Implementation)
5. Miscellaneous Technical Information
6. Technical Equipment Publications Authenticated
7. Safety and Maintenance Messages

The EIR Cases chapter, the original basis for the Digest, will address EIR cases that have been assessed for causes of deficiency, design, quality assurance, maintenance, and contractor liability. It is strongly recommended that NSNs in addition to part numbers and FSCs be included wherever possible-not only in this chapter but throughout the Digest-to prevent soldiers and other users from having to perform any cross-referencing.

The Minor Alterations chapter will contain articles that strictly adhere to the minor alterations policy as set down in paragraph 3-3 in AR 750-10. Any information that does not adhere to this stated policy will not be considered for inclusion in the Digest.

The DA Forms 2028 chapter will include all those 2028s responded to during the quarter in which concurrence was sent to the 2028 submitter.

The Miscellaneous Technical Information chapter will include articles containing technical and maintenance information not formally generated by EIR case studies, but resulting from engineering tests, design activities, depot operations, and support maintenance activities. This information is more informative than directive.

EIR DIGEST NEWS ARTICLE
(continued)

The last two chapters will merely be lists of the publications authenticated and the AESMSN messages released that quarter. Although this information may be found on LOGSA's ETMs Online Web site and TULSA, we believe having it compiled in one publication may be beneficial.

** PLEASE NOTE: Information in the Digest is informational in scope. Compliance is optional at the user's prerogative and expense. The Digest contains discretionary entries, authorizes certain maintenance actions, and gives advance information on pending changes to equipment publications. It is recommended that advance information on changes to maintenance publications, unless identified specifically as informational, be annotated in the appropriate publication and implemented immediately. The Digest will not be used to circumvent the proper publications process, such as submitting detailed Work Packages for inclusion in a TM that should be handled through the normal change package authentication process.

POC in the EPCO for the EIR Digest is Dana Culling. All Digest submissions, questions, and comments should contain the words "EIR Digest" in the Subject line of the e-mail (in addition to other information) and should be sent to the following mailbox:

usarmy.detroit.tacom.mbx.ilsc-tech-pubs@mail.mil

LOTTIS Downloading Instructions Keyword Search

On this page, and the next two, are examples of how to locate training materials in LOTTIS, either by Keyword Search or under Categories Column. As always though, if you need assistance, click on the Customer Assistance Request Tab and submit your inquiry on what you need assistance with and the LOTTIS Customer Assistance Team will be happy to assist.

- (1) Go to LOTTIS at <https://utap.army.mil>
- (2) On the Sign-in Page, click on I Agree
- (2) On LOTTIS home page, click on either the Army, Marines, or Navy Tab
- (3) In the Keyword Search Icon, type in the piece of equipment you are looking for by either spelling out the piece of equipment, using acronyms, NSN (without the dashes) or LIN, then click on **Search**
- (4) Once the file appears, click on “Click here to get details” then scroll down the page and you will see the training material files on hand.

LOTTIS Submitting Training Materials

If you have training material that you would like uploaded into LOTTIS, please follow the below instructions:

- (1) Go to LOTTIS Home Page at <https://utap.army.mil>
- (2) On the Sign-in Page, click on I Agree
- (3) Scroll down to the left hand side of the page
- (4) Under the Column, Submit Training Material, click on the Submit Training Material to LOTTIS Icon
- (5) Then follow the instructions on uploading files

Submit Training Material

Do you have training material that would benefit other field personnel that use TACOM equipment? If so, click the Submit Training Material To LOTTIS button below and follow the instructions.

Your submission will be reviewed by the UTAP Team and, if acceptable, the material will be added to the LOTTIS web site.

If you have any questions contact us at 586-282-4276 or usarmy.detroit.tacom.mbx.ilsc-utap@mail.mil

Submit Training Material To LOTTIS

Disclaimer

This material is NOT intended to replace institutional training or New Equipment Training by the Program Manager and therefore will NOT qualify you for any Additional Skill Identifier (ASI). The training material on this site should be used to SUPPLEMENT training in the operational domain.

Instructions

Use the file Browse button below to upload a file. Please explain why you think these files would be of value in the comments field. The UTAP team will review your file and load it into LOTTIS if acceptable.

WARNING! - LOTTIS is an FOUO site. DO NOT upload any material classified higher than FOUO nor any material which may contain Personal Identifiable Information (PII).
