1 Start the collection process

- Press the "Enroll" button.

- Once started, at anytime the user can press the "Cancel" button, which stops the biometrics collection and brings the user back to the main menu.

2 Capture subject's iris images

- Press the "Capture Left Iris" button.
- Hold the camera about 12 to 14 inches from the subject's eye.
- Press the trigger button to complete the capture process.
- Release the trigger button to complete the capture process.
- Continue to "Capture Right Iris."

انظر في المرآة ويفتح لكم
العين

Look into the mirror and
open your eye.

3 Capture subject's fingerprint images

- Press the "Capture Left Index Finger" button.
- Press the "Accept" button or trigger when fingerprint is visible.
- Continue until all ten fingers are entered, in order.

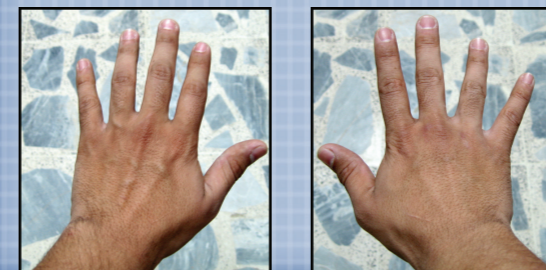

مكان لكم على اصبع الصندوق في الوقت
للتحرك الى امام

Place your fingers on the
box one hand at a time
until told to move.

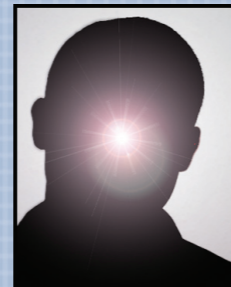

غادر هناك اصبع اولاً ثم اليد اليمنى ، وذلك من 1 الى 10

Left hand fingers first then
right hand in order,
1 through 10.

4 Capture subject's face image

- Press the "Capture Face" button.
- Hold the camera just under arm's length from the subject's face.
- Ensure subject's face is in focus, then press one of the shoulder triggers.
- Make certain the chin and the top of the head are visible in the captured photo to ensure consistency.

ينظر الى الكاميرا

Look into the camera.

5 Enter subject's biographic data

- Enter subject's biographic data by clicking on the text boxes.
- Use the "Next" and "Back" buttons to navigate through the five biographic screens.
- Press the "Save" button to complete the biometrics collection.

Biometrics Enable Identity Dominance...a Center of Gravity in the Counterinsurgency Fight
