UTAP News

Welcome to this edition of the Unit Training Assistance Program (UTAP) Newsletter, UTAP News. For those of you that are new members within the last month, the UTAP team would like to personally welcome you to our program.

Check-It-Out!

At the beginning of January, UTAP contacted its customers, via email, with an attachment, which contained a short clip trailer of the new MSD V3. The team at UTAP would just like to clarify that the attachment was only a trailer and not the training video itself. To view the MSD V3 in its entirety, log onto LOTTIS and view 1-8 chapters of the training video. If you run into any issues, please navigate to the home page and click on the Customer Assistance Tab (type in the pertinent information) and create a CAT case, or you can contact CAT via phone at (586) 282-4276.

Our Customers

As of February 4, 2013, we have 11,362 active members, who have downloaded 135,219 system files; we truly appreciate your business! If you know someone who is not a member and can benefit from our site, please send them a “Friend Request” through the “Friend Request” icon located in LOTTIS.

G-4 News Article—Norman Nagle, noman.b.nagle.civ@mail.mil—256-774-6777

New Requisition Process on DLA’s DRASH Repair Parts for the Large or Medium Trailer Mounted Support System (TMSS)

In order to improve the requisition process, DLA established a new process for NSN repair parts, and also for repair parts that do not have an NSN. Requisition document/s can now be sent to e-mail address: SOEorders@dla.mil. Once received, the SOE Order System will process and send the requisition document/s to the New York DRASH Office (NYDO). The NYDO will fill the requirement/s for tent parts only. If the requirement/s is for the large or medium TMSS, the NYDO will send the requirement/s to the Huntsville, Alabama DRASH Office. There are two ways to pay for the parts that are requested.

(a) The first way (if not a System Requisition): The unit will provide a MIPR to SOE prior to placing an order. Information that will be needed is cost of parts that are to be ordered, shipping costs, and DODAAC. The unit must also submit the customer’s POC info, which will include name, phone number, fax number, and e-mail address. Once all this is completed, the units can submit requests for needed items, as well as a date of when the items will be required.

News Article

If you have a news article that could benefit UTAP members and you would like it printed in the UTAP News, please submit your article to our Customer Assistance Team e-mail address

usarmy.detroit.tacom.mbx.ilsc-utap@mail.mil

by the 15th of each month and it will get printed in the following month's newsletter.

E-mail Address Verification

Just a reminder—If your work e-mail address has changed since you became a member or will be changing in the near future, don't forget to update your e-mail address in LOTTIS.

Training Videos

Did you know UTAP makes informational training videos? If you have training material that you would like made into a video please contact our Customer Assistance Team.

G-4 News Article continued

(b) Customers (Units) who use funded MILSTRIP requisitions will have no need to follow MIPR procedures.

Government Credit cards are not currently being accepted for this program.

DRASH Company

The DRASH Company has almost all of the repair parts for the large or medium TMSS. This system consists of the trailer, and an on-board generator that provides power for air conditioning, heating, tent lighting, as well as some power for in-tent equipment for computers, and other electronic devices when the tent is erected. The medium and large trailers have space for a stowed tent, tent parts, trailer equipment, and other power distribution equipment.

The TMSS Medium NSN: 8340-01-533-5344. LIN: P63462

The TMSS Large NSN: 8340-01-537-8710. LIN: P63394

Submitting Training Materials

Do you have training materials that would benefit other warriors who use TACOM equipment? If so, click the “Submit Training Material To LOTTIS” icon located on the LOTTIS home page.

Once you submit your material, the UTAP Team will then load it into LOTTIS.

NOTE: IF you require training material on a system that is not yet in our library-“click” on the Customer Assistance tab in LOTTIS and submit a CAT Help Desk Request. We will contact you once we receive your request for assistance.

Several resources are available from the U.S. Army to assist Marines with their logistics issues.

TACOM Life Cycle Management Command (LCMC) offers a wide variety of services designed to provide assistance to Marines, Sailors and Soldiers on many supply, logistics and training matters. In an effort to assist the Marines in accessing these services, the Marine Corps Logistics Command (MARCORLOGCOM), Albany, GA has assigned a Liaison Officer (LNO) at TACOM LCMC to serve as the focal point for Marine Corps customer support in the areas of: Command and Tactical Vehicles, Bridging Equipment, Material Handling Equipment, Construction and Engineering Equipment, and Petroleum and Water Distribution Systems.
